Claims 1-29 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 30-39, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, claims 30-39 now subject to being rejoined. Claims 30-39 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 06-30-05 is hereby withdrawn.

The following is an examiner's statement of reasons for allowance:

The limitation "said inner body formed of a composition comprising a polymeric material and a filler material, said filler material comprising one of the group consisting of a semi-conductive material and a dispersed conductive material" of claim 1 and "said inner body substantially filling said first chamber, said inner body spaced from and substantially circumscribing said oscillator projection" of claims 14-30 in combination with other limitations present is neither taught nor disclosed in the prior art of record.
